

Advanced Thymus and Immune Support*

Quantum Propolis Complex

Whole Body Defense, Especially Immune System, Thymus and Skin*

Quantum Propolis Complex Key Benefits

- Comprehensive immune-boosting, antioxidant formula for great energy, unmatched immune protection and defense*
- A natural thymus stimulant*
- Contains over 500 different, immune-boosting bioflavonoids*
- Supports the body's immune-active processes, especially skin, including stubborn cases*
- Pesticide-free, heavy metal-free
- Clinically proven, truly synergistic formula that delivers the Quantum Nutrition Effect¹

Pesticide-Free European Propolis

- Natural resin from bee hives with phytonutrient synergists
- 99% pure, pesticide-free and heavy metal-free
- Over 500 bioflavonoids, guaranteed minimum of chrysin (6 mg.), pinocembrin (6 mg.) and galangin (6 mg.)
- Proven thymus and immune system support*

Japanese Marine Coral Minerals

- Highly ionized coral calcium and magnesium (ideal 2:1 ratio) for rapid pH balancing to support a healthy, alkaline body*

Indian Noni (*Morinda Citrifolia*)

- Premier enzyme and whole body rejuvenator*
- For centuries, revered as a sacred healer by many cultures
- 100% unrefined, unmatched 10-plus quality from India
- Supports digestive, intestinal and immune balance*

The Perfect Propolis Formula

- 100% natural, pesticide-free European propolis
- Complexed with nutraceutical-grade synergists and co-factors for maximum absorption and utilization

European Multi-Pollen Extract

- "Beyond organic", pesticide-free, multiple European pollen extracts (allergen-free) for synergistic support
- A broader range of benefits than any single pollen extract

- Supports hormone balance, superior energy levels, healthy prostate and urinary tract*

Stabilized Rice Bran

- Super Food with over 100 known antioxidants

European Beta-Sitosterol & Sterolins

- Strong, immune-modulating activity for a healthy immune system*
- From non-genetically engineered soy, pesticide-free, processed without solvents (Asian origin)

Highly Purified Plant Enzymes

- Fully active enzymes, critical to uptake & transport of the propolis's bioflavonoids

¹The Quantum Nutrition Effect

100% quantum quality nutrients (exquisitely well grown & toxin-free), which promote the most rapid shift to ideal cellular resonance for great health

Complementary Products

Super Food Trio

Three product kit. The comprehensive, "beyond organic" vitamin and mineral nutrient system, all from once-living, natural sources (no synthetics) which contain a "body of light". Recommended for daily use for every person and child. Contains ample amounts of every nutrient essential for life and optimal health; clinically tested and proven.*

Quantum Multi-Pollen Extract

The perfect mate to Quantum Propolis Complex. Contains 18 different extracts of pure, pesticide-free pollen from Europe (*not highly pesticided, weak and toxic American pollen*); mold-spores removed to be allergen-free.

Supports the entire range of human physiology, especially hormone balance, superior energy levels, healthy prostate and urinary tract function.*

Quantum Aloe Drink

100% pure, inner leaf aloe juice (*no water added*) with 100% intact active polysaccharides, providing an ideal mannose delivery system (one of the 8 healing sugars in human physiology). Mannose promotes healthy mucus membranes and skin integrity throughout the body.*

Quantum Carnosine

A natural polypeptide concentrate (made from 2 amino acids) which acts as a powerful antioxidant, preventing glycation formation (*the anti-aging effect*) and which supports and helps rejuvenate damaged skin.*

Powerful, Topical Skin Support

Premier Colostrum Cream

Luxurious, thick face and body cream made with pure, natural, pesticide-free colostrum for a radiant complexion and healthy skin. Colostrum supports skin and immune system health, containing an abundance of powerful, immune-stimulating compounds including lactoferrin, MSM, immunoglobulins, glycoproteins, N-acetylneuraminic acid (the only natural food source) and more. Feed and nourish your skin with this super-healthy skin solution. Absolutely no toxic chemicals (*no propylene glycol, parabens, peg-8 stearate, etc.*)

Vegetable Capsules:

The Superior Choice

Magnificent Mr. Vcap

- Nutrients retained in their original form
- Easy to absorb
- No damaging heat or pressure
- No degrading of nutrients
- No rancid oil by-products or preservatives
- 50% better absorption than tablets
- Easily breaks down in stomach
- No toxic glues, binders, lubricants, gelatin
- Not solvent tainted Chinese vegetable caps

Miserable Mr. Tablet

- Up to 20,000 lbs. per sq. inch is used to smash ingredients into a tablet
 - Creates damaging heat and pressure
 - Can degrade nutrients up to 25%
 - Often creates rancid by-products
 - 50% poorer absorption than capsules
 - Often seen whole in the toilet
 - Liver-toxic glues, binders and lubricants
- usually not listed on the label

Vcaps (Vegetable Capsules) Vs. Gelatin Capsules

We use 100% pure, preservative-free Vcaps (vegetable capsules) from Capsugel which dissolve rapidly, regardless of the food temperature, unlike gelatin capsules which are hard to digest, temperature-sensitive, contain toxic preservatives and carry the risk of "mad cow" prion exposure. We also do not use Chinese vegetable capsules which often contain solvent residues.

Recommended Use: Adults or children (age 4 and up): Take 1 to 3 Vcaps daily. For special programs, up to 12 Vcaps may be taken daily. *Not recommended for people with an allergy to tree*

Quantum Propolis Complex (350 mg.Vcap; 60 Vcaps/bottle)

Ingredients: Proprietary, premier quality formula: "Beyond Organic" European Propolis, 99% pure, pesticide and heavy metal-free, over 500 Bioflavonoids; Guaranteed minimum: Chrysin (6mg), Pinocembrin (6mg), Galangin (6mg); Japanese Coral Marine Concentrate Mineral with Highly Ionized Calcium and Magnesium (in an ideal 2:1 ratio); Stabilized Rice Bran (*over 100 antioxidants*); Indian Noni (*Morinda Citrifolia*); European Multi-Pollen Extract (allergen-free); European Beta-Sitosterol & Sterolins, Highly Purified Plant Enzymes (Protease, Lipase, Amylase, Cellulase, Invertase, Lactase, Maltase)

Other Ingredients: 100% vegetable capsule, excipient-free (*no toxic tagalongs such as magnesium stearate*)

Organic Propolis

Organic Propolis

*Ancient Remedy with Strong Anti-infective,
Anti-tumor and Anti-inflammatory Properties*

The Broad-Range Healing Properties of Propolis

- Remarkable anti-infective properties
(Fights harmful bacteria, virus & fungus)
- Strong anti-cancer (anti-tumor) effects
(Can induce apoptosis in cancer cells, i.e. initiation of cancer cell death)
- Natural anti-inflammatory properties
(Stops pain and swelling)
- Proven anti-hepatotoxic agent
(Clears liver toxins and debris)
- Strong antioxidant action with over 500 different bioflavonoids
(The unmatched excitotoxin antidote, critical in all neurodegenerative disease, such as Alzheimer's, etc.)
- Speeds wound healing
- Protects cartilage from damage
(Superior effects over Indomethacin, an anti-inflammatory drug, as proven by research)

Get the Best Propolis

- Pure South American Propolis: Sourced from nontoxic bee hives in remote, pristine non-pesticided areas of the deep interior forests of South America, the *finest* source in the world
Not heavily pesticided, weak American propolis from infected hives
- Contains highly active, anti-infective compounds
- Guaranteed free of pesticide residues and heavy metals
- Processed without solvents or any other toxic chemicals

Ancient Healer, Modern Wonder

The Total Natural Healer. Bee propolis has been used effectively for thousands of years in folk medicine. This broad-spectrum remedy from ancient times has been used effectively for a wide range of problems. Today, worldwide research by experts in longevity and nutrition have made amazing discoveries about this totally unique and powerful substance, propolis, that some claim to be a 'total natural healer'.

Propolis is a major breakthrough in the quest for a non-toxic, powerful, all-encompassing healer that can assist the body in fighting a broad spectrum of infectious agents (including viral, bacterial and fungal infections), soothe the skin (including many types of skin conditions such as eczema), heal ulcers and improve the overall immune response.

Strong Anti-infective Properties. Numerous research studies on propolis show its ability to act as a powerful natural antibiotic without side effects that can help the body overcome many time-old problems, ranging from the common cold to arthritis to radiation injury. In analyzing propolis, researchers have found that in addition to its dramatic healing properties; it is also a highly nutritious total Super Food.

What is Propolis?

Mighty little worker bees from bee hives trek out into fields to collect nutritious, resinous substances from leaf buds, twigs and tree bark, then carry them back to the hive. Next, they process them with their enzymes to create a dark, sticky, highly nutritious resin called propolis, often referred to as "bee's glue." Propolis contains approximately 55% resins

and balsams, 30% bee's wax, 10% etheric oils and 5% pollen, all highly nutritious.

Propolis is derived from the Greek word, "pro," meaning "in defense of" and "polis," meaning "city." Together, the meaning, "in defense of the city," refers to the defense of the bee hive. The main use of propolis by bees is to protect their hive from disease and to

ward off outside invaders, such as ants. The bees coat every inch of the outside walls of their honeycombs with a thin layer of propolis to sterilize the comb, thus keeping the hive free of infection. Although the hive is an enclosed, moist environment, a natural breeding ground for infection, the propolis keeps the hive clear of bacteria, mold and mildew. The bees also use propolis to seal holes and gaps to prevent cold and rain from entering the hive.

An Ancient Remedy

Propolis has been in existence for an estimated **40 million years**. Man has used propolis both internally and externally for thousands of years as a healing agent. In 400 B.C., Hippocrates, the famous Greek physician, prescribed the use of propolis to help heal sores and wounds and internally, to resolve ulcers. It was later used by the Egyptians as a preservative. Pliny, the Greek scholar (23-79 AD) wrote about propolis as having the ability to "reduce swellings, soften indurations [hardened tissue], soothe the pain of the sinews [joints] and heal sores when it seems hopeless for them to mend."

An Ancient Biblical Remedy. The Hebrew word for propolis is "tzori," and its therapeutic properties are mentioned throughout the Old Testament in the Bible. Records from 12th century Europe describe many medical preparations using propolis for treating many different conditions, from mouth and throat infections to dental cavities.

Broad-Spectrum, Healing Properties. However, it wasn't until the 1950s that scientists, with the help of new analytical techniques, began to isolate the myriads of components in propolis and discovered their stunning ability to provide a wide array of healing effects, including remarkable anti-tumor, anti-inflammatory, anti-infective and antioxidant properties.

Potent, Anti-Cancer Effects. Worldwide research has shown that propolis has strong anti-cancer and immunomodulatory effects. Special phytonutrients in propolis, such as CAPE (caffeic acid phenethyl ester) and Propolin C, have significant cytotoxic effects and can induce apoptosis (i.e. break down cancer cells) in cancerous tumors, including skin cancer (melanoma), lung tumors, oral cancers, brain tumors and other cancer cell lines. One study showed that CAPE from propolis started destroying glioma cells in brain tumors within 24 hours.

Liver Protection and Healing. Research demonstrates that quinic acid derivatives naturally present in propolis have strong liver-protective effects and promote healing of toxic liver cells. Propolis has also been shown to lower blood pressure and cholesterol levels.

Proven Anti-Plaque and Anti-Cavity Effect. According to recent research published the *Caries Research Journal* (2000), propolis helps prevent the formation of dental plaque. This effect appears to stem from its ability to inhibit the activity of certain enzymes which synthesize glucans from sucrose that feed tooth-dissolving bacteria. Propolis effectively inhibited the activity of these enzymes up to 95%.

The Anti-Infective Uses of Propolis

- Strong anti-cancer effects against skin cancer (melanoma), lung cancer, oral cancer, brain tumors and more
- Stomach and intestinal infections and ulcers (especially effective against *Helicobacter pylori*, also called *Camphylobacter jejuni*)
- Respiratory tract infections
- Infections of the kidney and bladder
- Infections of the prostate gland and sexual organs
- Skin infections (from eczema to skin cancer)
- Dental cavities and plaque (caused by *Strep mutans* and other species)

They also noted that the active compound in propolis responsible for this anti-plaque effect, is still unknown and recommended further research to identify it. For dental health, propolis can be taken internally or mixed into a solution and rubbed into the gums.

What's In Propolis?

Analysis of propolis shows that it contains at

least 150 complex compounds, including many different bioflavonoids known for their strong, broad-spectrum, anti-infective properties. Propolis also contains a small amount of a whole array of natural vitamins, including vitamins A, B1, B2, B6, C, D, E, H, P, folic acid, nicotinic acid as well as many macro and trace minerals, including calcium, magnesium, iron, copper, zinc, manganese, silicon, cobalt, vanadium and strontium.

Propolis contains an abundance of highly active phytonutrients, such as dihydroflavonoids, which aid the body in absorbing vitamin C. Phenolic compounds, including many flavonoids, have been found in propolis, including CAPE (caffeic acid phenethyl ester), Propolin C, galangin, kaempferol, quercetin, pinocembrin, pinostrobin and pinobanksin. Other phenolics identified include quinic acid, ferulic acid, caffeic acid, cinnamic alcohol, cinnamic acid and vanillin.

The Natural Antibiotic

Because of its strong, anti-infective activity, propolis has often been called a "natural antibiotic." Many studies show its strong inhibitory effect on a wide variety of pathogenic organisms. Studies have shown propolis to be effective against many types of infectious bacteria, including *Bacillus subtilis*, *Helicobacter pylori*, *Staphylococcus aureus* (and other staph species), MRSA (methicillin-resistant *Staphylococcus aureus*), *Streptococcus* (many species, including *Streptococcus sobrinus*, *mutans* and *cricetus* which cause dental caries), *Mycobacterium tuberculosis* (which causes tuberculosis), *Streptomyces*, *Escherichia coli*, *Salmonella*, *Giardia intestinalis*, *Bacteroides nodosus*, *Klebsiella pneumoniae* and many others.

Propolis has been shown to be effective against many types of fungi, including *Candida albicans*, *Aspergillus niger*, *Botrytis cinerea* and *Ascosphaera apis*. Propolis has shown excellent results against viruses, such as herpes, influenza (in mice), Newcastle disease and the potato virus.
