WORLD CLASS BREAKTHROUGH

In the year 2000, after nearly 40 years of research and development, the historic Electronic Genius, Ed Skilling, developed breakthrough energy technologies incorporating innovative regeneration circuitry first released in the Photon Genie.

The Photon Genie is the first instrument that Ed Skilling developed to specifically communicate with the "immune system" and "special forces" of the body and the only technologies in history that prevents the body from acclimating to the proprietary electromagnetic and other energies that enhance and increase the performance of all functions of the body.

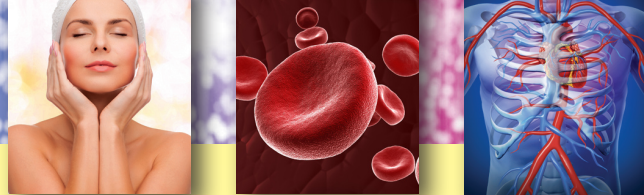

Ed Skilling incorporated all his innovative discoveries, including Controlled Frequency Harmonics, Pulse Control, Multiwave Oscillation, Frequency Broadcast Transmission, Lymphatic Movement and Balance, Cellular Oxygenation, Photo-Bioelectric Assimilation, Proprietary Noble Gas Harmonic Technologies, Subtle Energy Communication and Transmission, and Electronic Regeneration

all into one powerful and easy-to-use portable instrument called the Photon Genie.

The Photon Genie adds the benefits of bio-electrical and energy nourishment, like those we receive and need from the Sun and the Earth's energy fields, and improves simultaneous detoxification, rejuvenation, and body regeneration on the subtle energy levels including mental, emotional, and all physical functions.

The Photon Genie incorporates multiple transmitters providing unparalleled communication of energy harmonics combined with the uniquely powerful Noble Gas Energy Tube Technologies resulting in the most advanced therapeutic energy instrument ever developed.

As you can see in the picture, the Photon Genie has not one, but two Energy Transmitters (energy packs) and two Noble Gas Tubes (energy wands). The energy transmitters and energy wands are independently controlled (on/off) and the energy wand intensity of energy communication generated is controlled with the main intensity dial.

OZONE BENEFITS

One of the noticeable advantages of the Photon Genie is that the energy wands (glass tubes that pulse) contact the skin. As each plasma (Noble Gas) tube is ionized, communication from the main proprietary circuit transmits through this plasma state, producing resonant energy communication, and harmonic energy balance through skin, cells, tissues, organs, and systems of the body, while generating ozone through the skin to the blood system and tissues while converting it immediately into hydrogen peroxide, a powerful anti-oxidant in vivo.

In fact, hydrogen peroxide is trusted by many hospital and emergency rooms in the country for its remarkable ability to kill deadly germs like E. coli, etc. Hydrogen peroxide has attracted so much interest from doctors that over 6,000 articles about it have appeared in scientific publications around the world in recent years.

Research has discovered that hydrogen peroxide is an enabler of your immune system to function better and fight infections, pathogens, and diseases. Several books on the market provide remedial cures for hundreds of ailments, including cancer with hydrogen peroxide.

BALANCED ENERGY

In addition, Skilling resonant energy transmission is transmitted through the body without any distortion through all the chakras and meridians with balanced four polarity energy (the only instrument in the world to accomplish these amazing beneficial results). In this way a comprehensive delivery of energy is achieved containing a holistic spectrum of photo-biotic nutrition.

Because the micro-current emitted from the Noble Gas Energy Wands matches the electrical properties of cells at all levels of the body, it is able to travel along both the subtle and gross energy channels. This includes the energy pathways of the consciousness, those on the molecular level, as well as the acupuncture meridians (all the way to GV-20), the lymph channels, and blood system. Thus the gentle, yet penetrating, electron energy fills the entire body as life-force energy.

BIO-AVAILABLE PHOTONS

With the Photon Genie, the pulsed Harmonic Resonant Energies nourish the body with biophotonic energies similar to the biophotons produced by our DNA. Photons switch on the body's processes like an orchestra conductor bringing each individual instrument into the collective harmonic music.

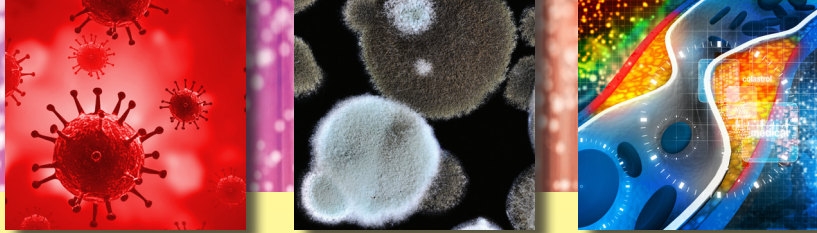

Dr. Fritz Albert Popp, German physicist, founder of biophotonics and pioneer in the field of quantum biophysics, now internationally recognized, respected, and appreciated, found that molecules in the cells responded to certain energies, and that a range of vibrations from the photons caused a variety of energy responses in other molecules of the body. This energy is the driving force for all molecules and cells in the body.

The biophotons (energy waves) are the signaling messengers for the biochemistry of the body. Energy waves also answered the question of how the body manages to carry out complicated feats with different body parts instantaneously, or do two or more things at once.

"The DNA is responsible for virtually every chemical interaction in the body including the 100,000 cellular chemical reactions per second in each cell. The chemical reaction can only happen if the molecule that is reacting is energized by a photon. Once the photon has stimulated a reaction, it returns to the energy flow and is available for more reactions... We are swimming in an ocean of energetic light."

When an object outside, or within, the body is exposed to its natural bio-available energy, it will pick up or resonate with that energy. This is similar to what happens when two violins have been precisely tuned. If the string on one violin is plucked or vibrated, the same string on the other violin will start to vibrate as well. When exposed to energies and harmonics produced by the Photon Genie, the cells will pick up their natural bio-available energies, and improve the balance of energies, strength, and performance of the body.

(continued)

The cells can then tune in and resonate to their natural, harmonic, balanced, healthy energies. The cells, organs, and systems of the body, like the immune system, can gradually be re-imprinted (resonated) and grow in strength, thus providing the body with the energies and strength to heal itself naturally rather than creating an artificial homeostasis through the use of chemicals and interventions (all interference to the energetic balance and health of the body).

MOVES & BALANCES LYMPH

The Photon Genie Energy Wands and Energy Transmitters safely deliver powerful energy transmissions that restore the circulation and balance of all the fluids in the body, especially the blood and lymph. The lymphatic system is connected to every organ in the body and is absolutely essential in managing toxins, purifying the body, and strengthening the entire immune system. Many consider proper lymphatic movement to be even more important than blood circulation. These fluids, however, require the energetic pumping actions of movement and cellular energy that is often severely limited in modern lifestyles.

Delivering safe, non-invasive and easy-to-use "Skillings Advanced Electronics," the innovative Photon Genie effectively provides full-spectrums of bio-available photons, ultra-harmonic resonant energy transmissions, and proprietary mega-frequency communications. This life-nourishing, body friendly, photo-biotic energy is effectively delivered by Ionized Noble Gas technologies and deeply penetrating mega-frequency life-force energy transmissions. The results are effective, harmonically balanced energy reception by cells, tissues, organs, and systems of the body to:

- **RE-ESTABLISH** the ideal vibrational frequencies and harmonic energy states of each individual cell, tissue, organ, and system in the body.
- **DEVITALIZE** pathogens (yeast, fungus, mold, viruses, bacteria, parasites, etc.), reducing inflammation, and infections, while slowing and reversing disease processes.

- **BREAK-UP** blockages and barrier tissues through re-polarizing cells and molecules; normalizing lumps, clots and mineral deposits.
- **DETOXIFY** the body by moving and balancing the lymphatic, circulatory and other fluid systems of the body through all the channels (blood vessels, lymph, capillaries, colon, intestines, etc.) for more efficient digestion, assimilation and transport of nutrition, vital energy and infinite intelligence throughout the cells of the body, brain and nervous system.

The Photon Genie transmits an intense, proprietary, complex system of frequencies, harmonics and life-force energies that is in harmony with the impedance (resistance) of the human body. This unique processing of light-energy and a harmonically balanced stream of electrons, temporarily disorganizes and releases the electrical bonds of non-functional protein chains, lumps, and accumulations.

The ability of the Photon Genie to safely soften nodules of accumulated wastes located in the lymph, is unique, in that it also gently stimulates peristalsis (movement) of the lymphatic vessels, and increases the movement and drainage of connective tissues. This lymphatic movement technology more quickly and effectively cleans out the lymph system more naturally and dynamically than any other current methods. Lymphatic drainage with somewhat similar devices is approved by the FDA.

The focus of this technology is on empowering organs and natural systems of the body at the cellular level to do what they were programmed with potential to do, only with more power and efficiency. When this occurs on a regular basis, a broad range of health improvements are allowed to manifest.

All of the innovative energy therapy breakthroughs of the past 50 years have come from the Genius of the Ed Skilling Institute of Technology (The Skilling Institute). The Photon Genie produces the most "noticeable" results in the body to empower the body to become the best it can be.
