"My family (and our dogs) love the Photon Genie and the dogs will sleep with the transmitter boxes on them. We've all been using the Photon Genie for years with great results. It has helped us, and our dogs, with various ailments and injuries over the years. There isn't a day that goes by that we are not using the Photon Genie!"

"Here is my cat who has totally hijacked my Photon Genie. I placed flat packs under a cushion, and wondering how I could convince him to try it. Before I noticed he placed himself on the spot and he is relaxing there day and night. During the night the machine is on for him to receive the healing rays. I am thinking when do I ever get to use the flat packs? I need to negotiate hard with him!"

My cat absolutely LOVES the Genie. He heads right to it when he comes in from patrolling the neighborhood all night and sleeps on it all day. He is super healthy and happy!

My dog definitely loves being where the Photon Genie is. He gets very relaxed and sleeps deeply.
